Kahl Votes Against Defunding Health Care Services to Wisconsinites

(MADISON) Rep. Robb Kahl (D-Monona) issued the following statement after he voted against the GOP backed AB 310, which threatens the health care services for thousands of Wisconsin women and families.

“I’m disappointed to see Republicans continue their campaign against women and family health care here in Wisconsin. Planned Parenthood of Wisconsin is responsible for providing thousands of Wisconsinites affordable health care, cancer screening, and responsible family planning. Defunding Planned Parenthood is nothing but a political stunt that will cause clinics to close and restrict access to health care.

The GOP will pat themselves on the back and claim this bill will protect women & children, but let’s be clear: the only thing this bill will do is make it more difficult for women to access health care in Wisconsin. That is nothing to be proud of.”
